EXCAVATION PERMIT APPLICATION

Applicant Name: _____ Date: _____

Applicant Street Address: _____

Applicant Phone: _____ Applicant Fax: _____

Project Location: _____ Owners Name: _____

Description of Work: _____

By signing, applicant agrees to:

- * The applicant must receive permission from the Public Works Supervisor and/or the Ipswich City Council before digging into street or alley.
- *The applicant will submit a deposit per Ipswich City ordinance 12-3. The deposit will be returned to the applicant when the work has been completed in the required manner.
 - *Fulfill all requirements of City Ordinances.
 - *Be responsible for compliance with OSHA regulations.
 - *Provide traffic control devices and barriers.
 - *Comply with State Statutes regarding utility locates.
 - *Agree to complete final surface restoration by _____.
 - *Provide compaction test results (95% or greater compaction is required for base course gravel and asphalt in the street; 90% or greater compaction is required for all sub-base work in alleys and all other areas). The test standard is the Modified Proctor.
 - *One test is required per 20 feet of trench, every 3 feet of depth with **a minimum of 2 tests per excavation.**
 - *The City of Ipswich Public Works Department must inspect and approve the sewer tap and the water tap at the main as well as the service lines to the property prior to backfilling. (Per 16-3-7&8 and 16-2-9)
